STREAMLINE DOCUMENT - RELATED BUSINESS PROCESSES

Stop looking for a needle in the haystack. We provide Document and Enterprise Content Management solutions applicable across many industries and organizations. We partner with SAPERION®, a market leader in ECM with proven results.

On the average employees spend six hours per week searching, filing and retrieving company documents. How long does it take you to find a document? Where are the mission – critical documents when you need them? In a file cabinet? In computer? Attached in an email? Stop the guesswork now.

We help companies file, retrieve and archive mission-critical documents and enterprise content that produces dramatic reduction in processing cost, significant improvements in workflow automation and improved employee productivity. Achieve maximum efficiency by integrating with SAP, NAVISION and several other enterprise systems (ERP/CRM)

What do clients say about Saperion?

SAPERION INBOUND SUITE

"Already only two months after launch, about 55% of the annual 100,000 incoming invoices are captured electronically - out of these, 90% are booked in the SAP system without any need for manual intervention."
